

DUBAI

**1st Conjoint Meeting of the
Cervical Spine Research Societies
Asia Pacific (CSRS-AP) and Europe (CSRS-E)**

2-4 June 2027

The CSRS—Europe and CSRS—Asia Pacific proudly reflect on a long shared history, providing a unique platform for exchanging expert knowledge and advancing cutting-edge science in cervical spine research. United by strong friendships and a common dedication and high-end solutions for complex cervical disorders, we are pleased to announce the **first-ever joint global annual meeting**, set to take place in **Dubai in summer 2027**. This worldwide meeting will replace the individual annual meetings of each society for that year.

Spanning **three days**, the event will focus exclusively on the latest advancements in cervical spine research, diagnostics, treatment, and complication management.

With more than **500 participants expected**, attendees will gain insight into the latest industry developments, as well as current and future trends. The program will feature **scientific research sessions, instructional course lectures, round tables, debate sessions, workshops, and industry symposia**, all addressing the challenges and state-of-the-art solutions for cervical spine disorders.

Held in the dynamic business hub of Dubai – it will be **centrally located for global travel** not only from Europe and the Asia Pacific regions but also from the Middle East, Africa, and the Americas, so as to facilitate gathering from all over the world.

Industry symposia, workshops, exhibitions, and vibrant social events will provide the perfect environment for connecting surgeons and medical companies, fostering partnerships, enhancing understanding between clinicians and industry innovators, and strengthening professional relationships.

If you would like to learn more about **corporate sponsoring opportunities**.

We look forward to welcoming you in Dubai!

Heiko Koller
CSRS – Europe
Chair of RTF

Hisanori Mihara
CSRS – Asia Pacific
Chair of RTF

Andrés Comabila
CSRS – Europe
President

Ken Ishii
